For admission to the 4-year bachelor’s degree, students will be enrolled to one of the departments and choose majors available in the respective department after completing the first year of study, except for departments offering one single major.

**Bachelor’s Degree**

**Department of Architecture and Civil Engineering**
- Architectural Engineering
- Civil Engineering
- Surveying

**Department of Biomedical Engineering**
- Biomedical Engineering

**Department of Computer Science**
- Computer Science

**Department of Electrical Engineering**
- Computer and Data Engineering
- Electronic and Electrical Engineering
- Information Engineering

**Department of Materials Science and Engineering**
- Materials Science and Engineering

**Department of Mechanical Engineering**
- Mechanical Engineering
- Nuclear and Risk Engineering

**Department of Mechanical Engineering**
- Mechanical Engineering
- Nuclear and Risk Engineering

**Department of Systems Engineering and Engineering Management**
- Intelligent Manufacturing Engineering* (Subject to the approval of the University)

**Department of Architecture and Civil Engineering (For Advanced Standing II admission only)**
- Architectural Studies
  (For holders of associate degree or higher diploma in Architectural Studies or an equivalent qualification)

**Top-up Bachelor’s Degree**

**Department of Architecture and Civil Engineering**
(FOR Advanced Standing II admission only)
- Architectural Studies

**Associate Degree**

**Department of Architecture and Civil Engineering**
- Architectural Studies

**Division of Building Science and Technology**
- Building Services Engineering
- Construction Engineering and Management
- Surveying
